Appendix to the CCV certification scheme Cyber Security
Pen Test |

Pen test qualifications

Version 2.0
Publication date: 1 April 2024
Effective date: 1 April 2024

The qualifications of professionals are specified in the certification scheme for pen testing. After all, the quality of the work delivered depends on the professional competence of the professional who carries out the work. The qualifications apply to professionals who perform tasks from the certification scheme. The service provider determines that its employees meet one or more of the following qualification requirements:

- OSCP
  https://www.offsec.com/courses/pen-200/
- OSCE3
  https://www.offsec.com/certificates/osce3/
- OSWE
  https://www.offsec.com/courses/web-300/
- OSWA
  https://www.offsec.com/courses/web-200/
- eWPTX
  https://elearnsecurity.com/product/ewptxv2-certification/
- CRTP
  https://www.alteredsecurity.com/certifications
- CRTE
  https://www.alteredsecurity.com/certifications

Can no longer be obtained, but valid:

- OSCE
  https://www.offensive-security.com/ctp-osce/
- eCPPTX
- eCPTXv2

No longer valid as of 1 October 2024:

- GPEN
  https://www.giac.org/certification/penetration-tester-gpen
- GXPN
  https://www.giac.org/certifications/exploit-researcher-advanced-penetration-tester-gxpn/
